It is indeed a proud moment that the Mechanical Department has initiated to bring out its Sixth edition of "MechNEWS". When the world is witnessing the deadly Covid-19 pandemic, timing of the newsletter becomes increasingly important. The students also are facing the challenge of the new normal of "Online teaching and learning mode" of education. I wish this newsletter to continue and attain the heights of excellence. My best wishes to everyone associated with this newsletter, and special thanks to the editorial team.

**FROM PRINCIPAL DESK**

It gives me immense joy to share that "MechNEWS" is doing very well. I appreciate the hard work of all students, faculty and wholeheartedly thank them for presenting the Sixth edition of Newsletter in a very informative and attractive way. This Newsletter consists of various articles on current trends meticulously curated by our editorial team. We hope it will inspire you and enrich you with practical knowledge in the field of Mechanical Engg. Once again, deepest gratitude to everyone for making the newsletter a great source of learning.

**ABOUT THE DEPARTMENT**

Apart from the UG program, we have a PG program with an intake of 18 students in Machine Design. Recently a lab was setup for PG students to get good exposure to various software's related to specialization and to carry out project work. The department has signed an MOU with CADD Centre and established an in-house training centre exclusively for our students. The department has obtained permission to continue its research centre under Visvesvaraya Technological University. Many of our faculty members are engaged in research through this research centre. We have a very cordial faculty student engagement in the department and this helps in the overall development of the student's progress. The Sixth edition of MechNews gives us a glimpse of our activities for this academic year.
