### REPORT ON STUDENTS FEEDBACK ANALYSIS DEPARTMENT OF MINING ENGINEERING ACADEMIC YEAR 2020-21

1. Curriculum meet pre-requisite and basic knowledge required for the career.  
The above analysis shows that, 80% of students Agrees that the curriculum meets the pre-requisite and basic knowledge required for the career, 20% of the students said they can't say and none of the student has disagreed.
2. Electives offered meet the recent technological advancements.  
The above analysis shows that, 76% of the students Agrees that the Electives offered meet the recent technologies, 22% of the students have said they can't say and 2% of the students said they disagree.
3. New courses included in the curriculum meet existing and future advancements.  
The above analysis shows that, 73% of the students Agrees that the new courses in the curriculum meets the future advancements, 22% of the students said they can't say and 5% of the students said they disagree.
4. Scheme of the courses encourages/motivates extra learning/self-learning.  
The above analysis shows that, 80% of the students Agrees that the courses motivates them for extra learning/self-learning, 12% of the students said they can't say and 7% of the students said they disagree.
5. Curriculum has the exact balance between theory and laboratory.  
The above analysis shows that, 76% of the students Agrees the curriculum has the balance between theory and laboratory, 22% of the students said they can't say and 2% of the students said they disagree.
6. Curriculum offers the sufficient number of electives.  
The above analysis shows that, 78% of the students Agrees the curriculum offers the sufficient number of electives, 20% of the students said they can't say and 2% of the students said they disagree.
7. The course outcomes of the course address the curriculum or syllabus of the individual course.  
The above analysis shows that, 78% of the students Agrees the course outcomes of the course address the curriculum of the individual course, 17% of the students said they can't say and 5% of the students said they disagree.
8. The contact hours for addressing the curriculum are well distributed.  
The above analysis shows that, 78% of the students Agrees the contact hours for addressing the curriculum are well distributed, 20% of the students said they can't say and 2% of the students said they disagree.
9. The curriculum has the potential in developing the habit of self-learning among the students.  
The above analysis shows that, 80% of the students Agrees the curriculum has the potential in developing the habit of self-learning among the students, 17% of the students said they can't say and 2% of the students said they disagree.

### 10. The curriculum has focus on skill development.

The above analysis shows that, 80% of the students Agrees the curriculum has focus on skill development, 10% of the students said they can't say and 10% of the students said they disagree.

### 11. Scope for lifelong learning in curriculum.

The above analysis shows that, 80% of the students Agrees the curriculum has the scope for lifelong learning, 15% of the students said they can't say and 5% of the students said they disagree.

### 12. Scope for research and innovation.

The above analysis shows that, 81% of the students Agrees the curriculum has the scope for research and innovation, 12% of the students said they can't say and 7% of the students said they disagree.

### 13. Curriculum ensures professional ethics, sustainable development and social responsibility.

The above analysis shows that, 86% of the students Agrees the curriculum ensures professional ethics, sustainable development and social responsibility, 7% of the students said they can't say and 7% of the students said they disagree.

2. Institute takes inputs from employer while framing/revising syllabi/curriculum.  
The above analysis shows that, 100% of the Employer said the Institute takes inputs from employer while framing/revising the curriculum, none of the Employer said they can't say and none of the Employer said they disagree.
3. Curriculum has enough scope for providing solution for real-time engineering problems in terms of fundamentals of engineering.  
The above analysis shows that, 100% of the Employer said the curriculum has enough scope for providing solution for real-time engineering problems, none of the Employer said they can't say and none of the Employer said they disagree.
4. Curriculum ensures the identification, formulation, review and solve the problem in real-time.  
The above analysis shows that, 100% of the Employer said the curriculum ensures the identification, formulation, review and the problem solving ability in real-time, none of the Employer said they can't say and none of the Employer said they disagree.
5. Curriculum ensures the design of mine that, it suits the specific needs with consideration of safety and the environment.  
The above analysis shows that, 100% of the Employer said the curriculum ensures the specific needs with consideration of safety and the environment, none of the Employer said they can't say and none of the Employer said they disagree.
6. The experiments available in the lab curriculum address the specific need of the industry.  
The above analysis shows that, 75% of the Employer said the experiments available in the lab curriculum address the specific need of the industry, 25% of the Employer said they can't say and none of the Employer said they disagree.
7. Curriculum intend towards the conduct of investigations of complex problems based on design of experiments, analysis, interpretation and synthesis of data.  
The above analysis shows that, 100% of the Employer said the curriculum is intending towards the conduct of investigations of complex problems based on design of experiments, analysis, interpretation and synthesis of data, none of the Employer said they can't say and none of the Employer said they disagree.
8. Curriculum intend towards applying prediction and modeling to complex mining engineering problems with an understanding of the limitations.  
The above analysis shows that, 100% of the Employer said the curriculum is intending towards applying prediction and modeling to complex mining engineering problems with an understanding of the limitations, none of the Employer said they can't say and none of the Employer said they disagree.

## Dr.T. THIMMAIAH INSTITUTE OF TECHNOLOGY

(Estd. 1986) Oorgaum, Kolar Gold Fields, Karnataka – 563120

(Affiliated to VTU, Belgaum, Approved by AICTE - New Delhi)

9. Curriculum intend to apply reasoning to assess societal, health, safety, legal and cultural issues and provide reasoning for the same.

The above analysis shows that, 100% of the Employer said the curriculum is intending to apply reasoning to assess societal, health, safety, legal and cultural issues and provide reasoning for the same, none of the Employer said they can't say and none of the Employer said they disagree.

10. Possess the necessary interpersonal and communication skills to be a productive member of the team in work environment.

The above analysis shows that, 100% of the Employer said they possess the necessary interpersonal and communication skills to be a productive member of the team in work environment, none of the Employer said they can't say and none of the Employer said they disagree.
